EDUCATION

University of Virginia

Charlottesville, VA

B.A in Computer Science

May 2026

- Relevant Coursework: Object Oriented Programming; Data Structures & Algorithms; Computer Systems & Organization; Software Development Essentials; Human Computer Interaction; Discrete Math & Theory; Data Science & Statistics; Database Systems; Artificial Intelligence; Calculus
- Activities & Societies: Club Wrestling, Delta Sigma Phi, Intramural Tennis.

EXPERIENCE

UVA in Greece: Creative Interaction Design

Summer 2025

Student Intern

Crete, Greece

- Designed and prototyped a high-fidelity museum visitor experience application featuring personalized quizzes, interactive mapping, and AI-powered chat assistance to enhance tourist engagement in Heraklion museums
- Conducted 15+ contextual inquiries and usability tests with tourists, business professionals, and UI experts to validate design decisions and iterate core features for clarity and continuity.
- Delivered a complete UX workflow from user research through prototyping, demonstrating proficiency in user-centered design methodologies and stakeholder collaboration.
- Skills/Technologies used: User Research, Prototyping, User-Centered Design, Contextual Inquiry, Usability Testing, Figma, ProtoPie.

Yakabod, Inc.

Summer 2023, Summer 2024

Computer Science Intern

Frederick, MD

- Executed 500+ software tests across regression, acceptance, integration, and feature validation workflows, identifying and documenting defects to improve product reliability and release quality.
- Participated in full software development lifecycle activities including sprint planning, code reviews, and team standups, gaining hands-on experience with agile methodologies.
- Contributed to testing automation efforts and establishing comprehensive test documentation standards.
- Skills/Technologies used: Software Testing, Test Documentation, Agile/SDLC, Regression Testing, Integration Testing.

K & C Consulting

Summer 2022

Computer Science Intern

Arlington, VA

- Developed REST API-based scripts to automate interactions with cybersecurity software platforms, reducing manual configuration time and improving operational efficiency.
- Mastered REST API architecture principles and product-specific API documentation to implement secure, scalable integration solutions for security workflows.
- Skills/Technologies used: REST APIs, Cybersecurity Tools, API integration, Scripting, Security Automation.

NOVA Web Development

Summer 2021

Computer Science Intern

Arlington, VA

- Built and deployed responsive websites using Python/Django framework, implementing backend logic, database integration, and front-end components for client deliverables.
- Researched and prototyped mobile application features integrating DC Metro and public transit data using C# for real-time transit information delivery.
- Skills/Technologies used: Python, Django, C#, Web Development, Mobile App Development, API Integration, HTML/CSS.

SKILLS & INTERESTS

Languages: Python, Java, SQL, C, C#, C++, JavaScript, HTML/CSS, Latex, TypeScript

Developer Tools: Git, Unix Shell, VS Code, JetBrains, Google Cloud, MySQL

Foreign Languages: Fluent speaker in Spanish

Interests: Soccer, Boxing, Wrestling, Surfing, Skating, Travel, Animation, Film, UVA Sports Teams.
